Education

Bachelor of Engineering in Computer Science
Manipur Institute of Technology

Aug 2021 – May 2025
Manipur, India

Experience

Software Engineer – Internship, Lamzing Technologies Pvt. Ltd. - Imphal

Apr – Aug 2025

- Developed core features for a headless CMS blogging platform using Strapi (Node.js) and React with responsive design and content workflow automation.
- Designed and developed responsive React components while integrating RESTful APIs to support seamless frontend-backend communication.
- Engaged in Agile development cycles using Git for version control, conducted peer code reviews, and applied software design principles.

Projects

AI-Powered RFP Management System – [GitHub]

– 2026

- Built full-stack procurement platform with conversational AI interface for natural language RFP creation, automated vendor email distribution, and intelligent proposal parsing using Google Gemini 2.5 Flash.
- Implemented IMAP email polling system with AI-powered extraction from PDFs and email bodies, automated proposal comparison with scoring, and chat-based session management for iterative RFP refinement.
- Stack:** TypeScript, React, Node.js, Express.js, PostgreSQL, Prisma, Nodemailer, Tailwind CSS, Gemini API

RandomHub – randomhub.app

– 2025

- Launched a multi-generator platform with 15+ client-side tools, attracting 200+ monthly users through SEO optimization
- Implemented client-side architecture with Next.js 15 App Router, localStorage persistence, and zero backend dependencies
- Stack:** Next.js, TypeScript, Tailwind CSS, Shadcn/ui, Lucide React **Deployment:** Cloudflare Pages

E-commerce Website – [Backend Repo] [Frontend Repo]

– 2025

- Developed a full-stack e-commerce platform with product catalog management, OTP-based authentication, automated transactional emails, and secure payment processing workflows.
- Built with Redux Toolkit for predictable state management, Redis caching layer for product queries, JWT-authenticated RESTful APIs with role-based authorization, and AWS S3 presigned URLs for scalable image storage.
- Stack:** TypeScript, React, Redux, Node.js, Express.js, Redis, PostgreSQL, Tailwind CSS **Deployment:** AWS - EC2, S3

Certifications & Awards

Certifications:

- HackerRank Certified Software Engineer – Problem Solving, SQL, REST API

Nov 2025

Awards:

- Robert Memorial Internship Award** – MaolKeki Foundation

Jul 2025

Selected through competitive interview process. Received stipend and certification. Featured in regional news.

Skills

Languages: JavaScript, TypeScript, Python

Frontend: React, Next.js, Tailwind CSS, Redux, HTML, CSS

Backend: Node.js, Express.js, Strapi, WebSockets/Socket.io, RESTful APIs, LLM Integration (Google Gemini)

Databases: PostgreSQL, MongoDB, Redis

Cloud & DevOps: AWS (EC2, S3), Docker, Vercel, Render, Cloudflare Pages, GitHub Actions

Tools: Git, Postman
